

**\*VIRUCIDAL:** Respiratory Syncytial Virus, Rotavirus, Rhinovirus, Human Immunodeficiency Virus Type 1, Herpes Simplex Type 1 Virus, Herpes Simplex Type 2 Virus, Vaccinia Virus, Influenza A Virus

**BACTERICIDAL:** Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica (formerly Salmonella choleraesuis), Carbapenem-resistant Klebsiella pneumoniae, Listeria monocytogenes, Escherichia Coli O157:H7, Staphylococcus aureus - MRSA \*\*EPA requires a potable water rinse after treatment on food contact surfaces.

**\*Emerging Viral Pathogens**

This product qualifies for emerging viral pathogen claims per the EPA’s Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below. This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses
- Small Non-Enveloped Viruses

**DiSantech Wipes** have demonstrated effectiveness against viruses similar to SARS CoV-2 on hard, non-porous surfaces. Therefore, DiSantech Wipes can be used against SARS CoV-2 when used in accordance with the directions for use against Feline Calicivirus (ATCC VR-782) surrogate for Norovirus on hard, non-porous surfaces. Refer to the CDC website at <https://www.cdc.gov/coronavirus/2019-ncov/index.html> for additional information.

For an emerging viral pathogen that is a/an	<i>follow directions for use for the following organisms on the label</i>
Enveloped Virus	Rhinovirus Type 14 Strain 1059
Large, non-enveloped virus	Rhinovirus Type 14 Strain 1059
Small, non-enveloped virus	Feline Calicivirus [surrogate for Norovirus] Rhinovirus Type 14 Strain 1059
