CLEANING WIPES FOR LABEL PRINTERS

Improve your printer's performance and print quality with our Label Printer Cleaning Wipes, premoistened with fast-acting PrintMint® formula. These biodegradable, non-abrasive wipes are designed to quickly loosen and remove sticky label residues and other contaminants that accumulate inside your printer with normal operation. The unique cleaning formula not only effectively cleans but also leaves behind a thin protective layer, helping to reduce future buildup and extend the lifespan of your label printer technology.

- Removes Sticky Label Residue Buildup
- Improves Performance & Print Quality
- NSF Certified - Safe for Food Processing Areas

APPLICATION

Ideal for cleaning linerless label printer technology. Effectively removes hot melt adhesives, acrylic adhesives, wax resin, paper flash, and other problematic buildup from thermal printhead, platen rollers, cutter and other printer components.

KIC PrintMint wipes are a hospitality cleaning solution that is proven to remove excess printer buildup and restore optimal print quality & printer performance even in the most punishing QSR kitchen environments.
