KEEP IT CLEAN

CASE STUDY

Weekly TCR Cleaning Kit Usage Reduces TCR Jam & Fault Rates at Top Five US Bank

A premiere TCR manufacturer conducted a study of over 60 TCRs at 30+ bank branch locations for a top five US FI and examined 6 months' worth of transaction data. During this study it was found that branches using the KICTeam cleaning kits on a weekly basis significantly reduced both the jam and error rate on their TCRs.

When KICTeam TCR cleaning kit is properly used on a regular basis it provides tangible increases in uptime at the TCR and reduces the need for service calls saving the FI both time and money.

The **Results** After 6 Months of Cleaning

12.5% Reduction in TCR Jams

7.2% Reduction in TCR Faults

10.7% Fewer Service Calls for TCRs
